Assignment 1: Kinetic Type

February 4, 2016

Kinetic typography is an animation technique using moving text. The text is revealed over time to convey ideas and evoke emotions. The type should match the audio while giving your viewer enough time to read the text as it moves across the screen.

Project:

Create a typographical animation using an audio clip (30 – 60 seconds long) of a quote from a well-known person or group.

Fill out the brainstorming worksheet on the other side.

Use found or created imagery to support the design and animation (photos, drawings, textures, etc)

Find or capture audio for your project (we will go over how to do this).

Specifications:

The movie should have a title card (Person quote from something) and be at least 30 seconds to 60 seconds in duration.

Movie size: 640 x 360
Export as h.264 quicktime with audio
Name file: lastname_firstname_01.mov

Upload file to your youtube or vimeo account.

Research your subject and get to know more about them. Go to online to reliable sources and gather references.
